

# Muhammet Eren Turgut

Junior Developer

## PROFILE

I am a third-year management information systems student and I am constantly improving myself with my passion for web design and development. I am on my way to becoming an effective expert on the Developer path with my strong analytical thinking and problem-solving skills. Additionally, I am looking for opportunities to improve my leadership skills. I have an approach that is open to innovation and change, and "I am a determined candidate for success in this field
